With new material on the **'UNLEASHED' tour**, Blue Value celebrate blues rock and blues in an explosive fusion of passion and musical diversity.

The songs are a melting pot of the different musical backgrounds that the band members bring to the table. The band has been made up of experienced musicians since 2018. They combine their skills and experience to create songs that touch the heart, speak to the soul and get the body moving: **Blues rock from the Glarus valley.**

The band members have many years of musical experience in various formations. With Blue Value, this experience flows into the songwriting. The songs reflect the human condition in its depth: sometimes emotional stories that convey gentle, thoughtful moments and powerful, hopeful messages, sometimes singing about the joys and challenges of modern life. Anchored in blues rock, the songs are enriched with elements of jazz, country, soul and mainstream.

Live, the band thrills their audience with a dynamic set of their own songs. Their performances are powerful, soulful and imbued with the band's energy.

„The Glarus blues band is known for its authentic sound and passionate performances. They combine classic blues elements with modern influences, creating a rousing and unmistakable style.“
